Before and After 20-100 Happy Hippos

I am learning to say the before and after number (20-100)

Equipment: 4 hippo cards, 4 stop cards, a double set of number cards from the list being practiced (for 2-4 players).

How to Play: The object of the game is to collect the most cards

- Add the hippo and stop cards to the mixed up number cards.
- Play begins by turning all the cards upside down and spreading them around on the table.
- The first player begins by declaring how many before/after numbers he thinks he can correctly say (limit of 1-4) before getting a hippo or stop card. He then chooses one card at a time and answers AS HE CHOOSES IT. His turn continues until he reaches the number declared, misses a number, or until he draws a hippo or stop card.
- All hippo and stop cards go back onto the table after each turn.
- A stop card automatically ends his turn. The child may keep any cards already earned. A hippo card automatically ends the turn but any cards won in that turn must be spread out on the table again, facedown.
- The game continues until only the hippo and stop cards remain.
