Blowing Bubbles

I am learning to say the forwards and backwards number word sequence 0–10

Equipment: Blowing bubbles cards, bubbles numerals and self checking cards.

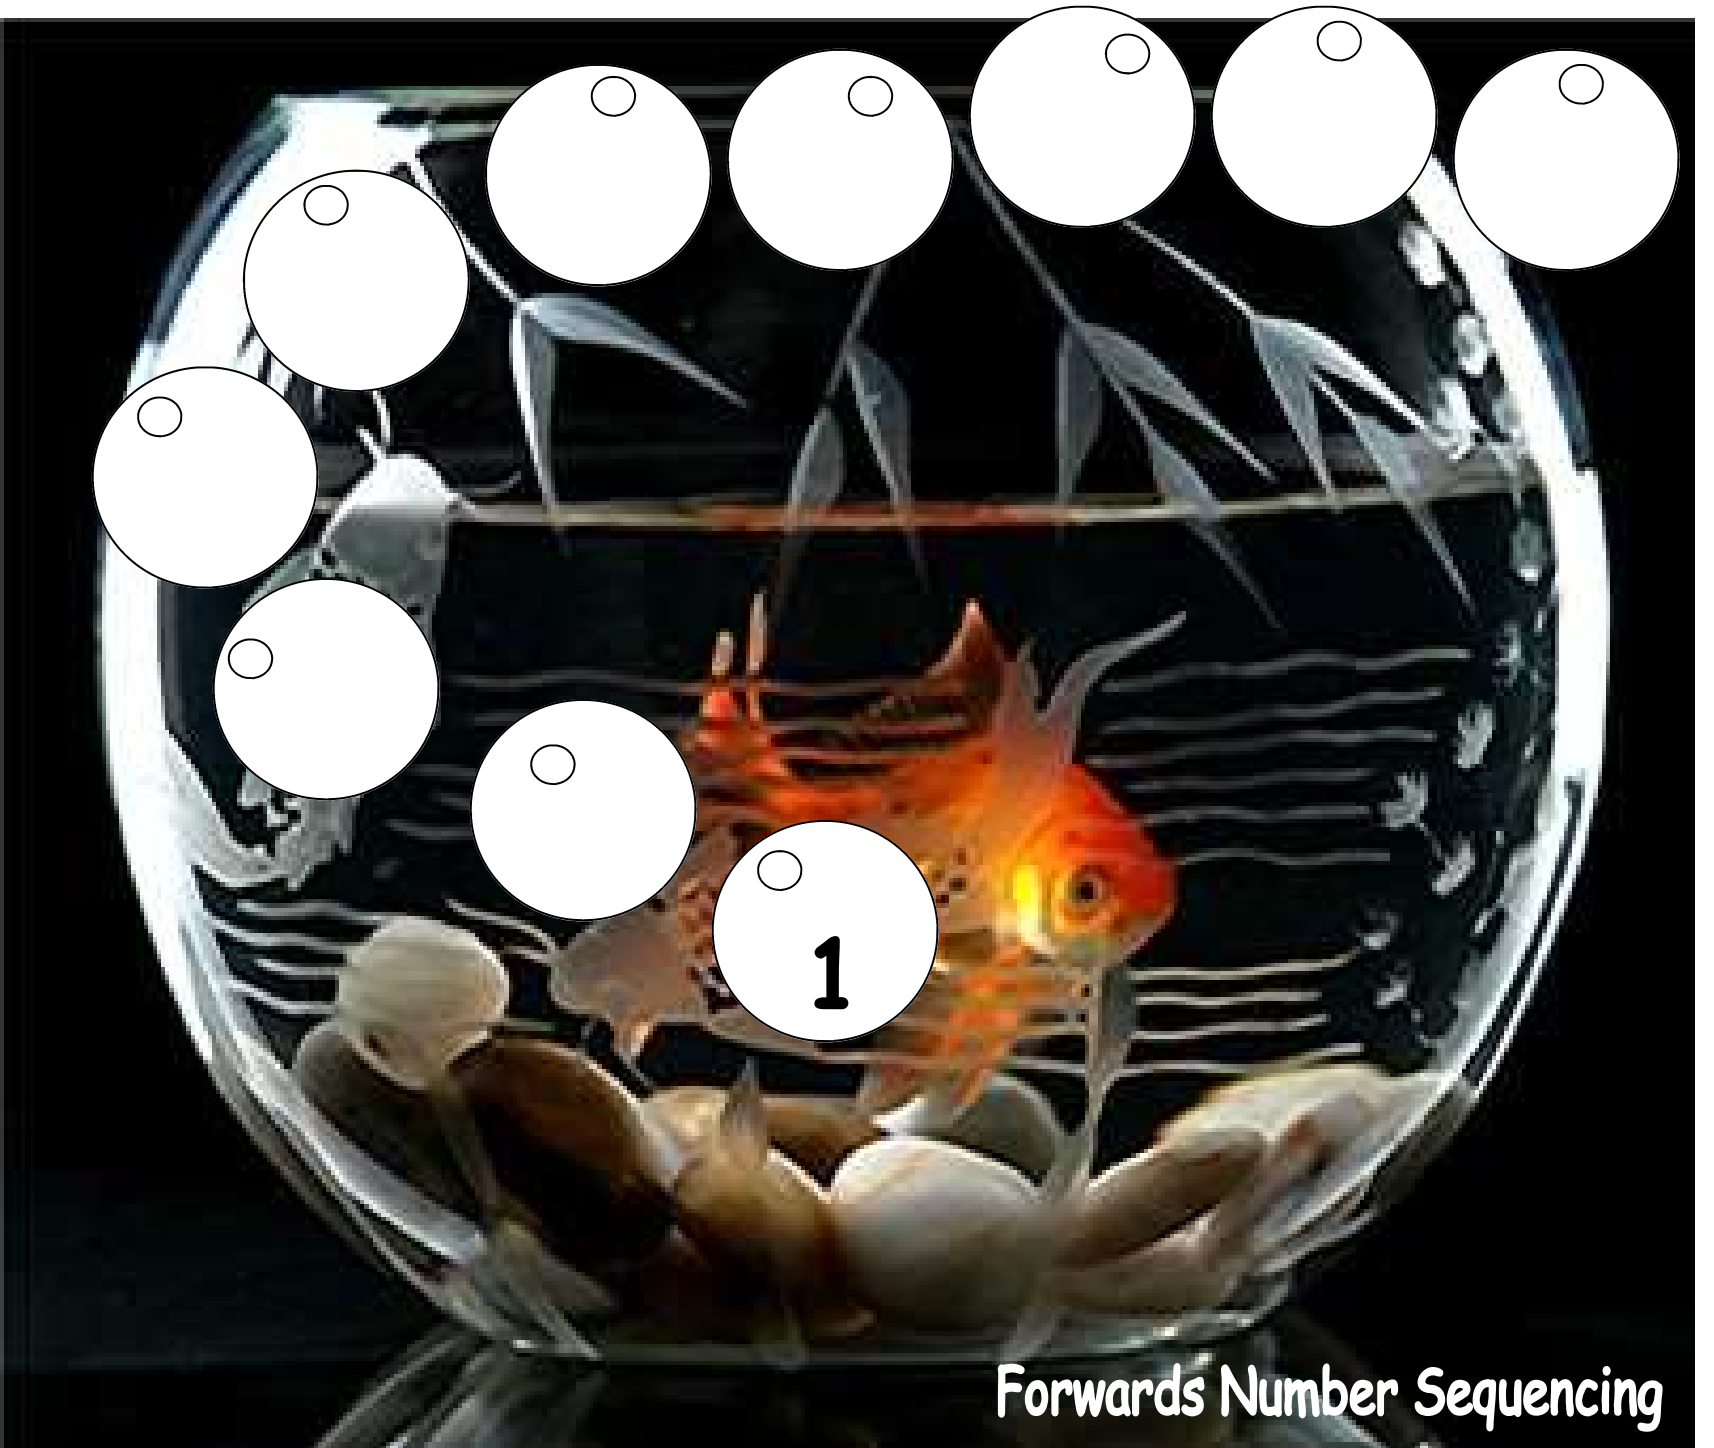

How to Play: The object of the game is for children to correctly place the bubble numerals on the bubbles on the card in order from 1 -10, and in backwards sequence from 10-0.

- 1 player at a time
- Children take turns at placing the numeral bubbles and using the self checking cards to check that they were correct.

Extension

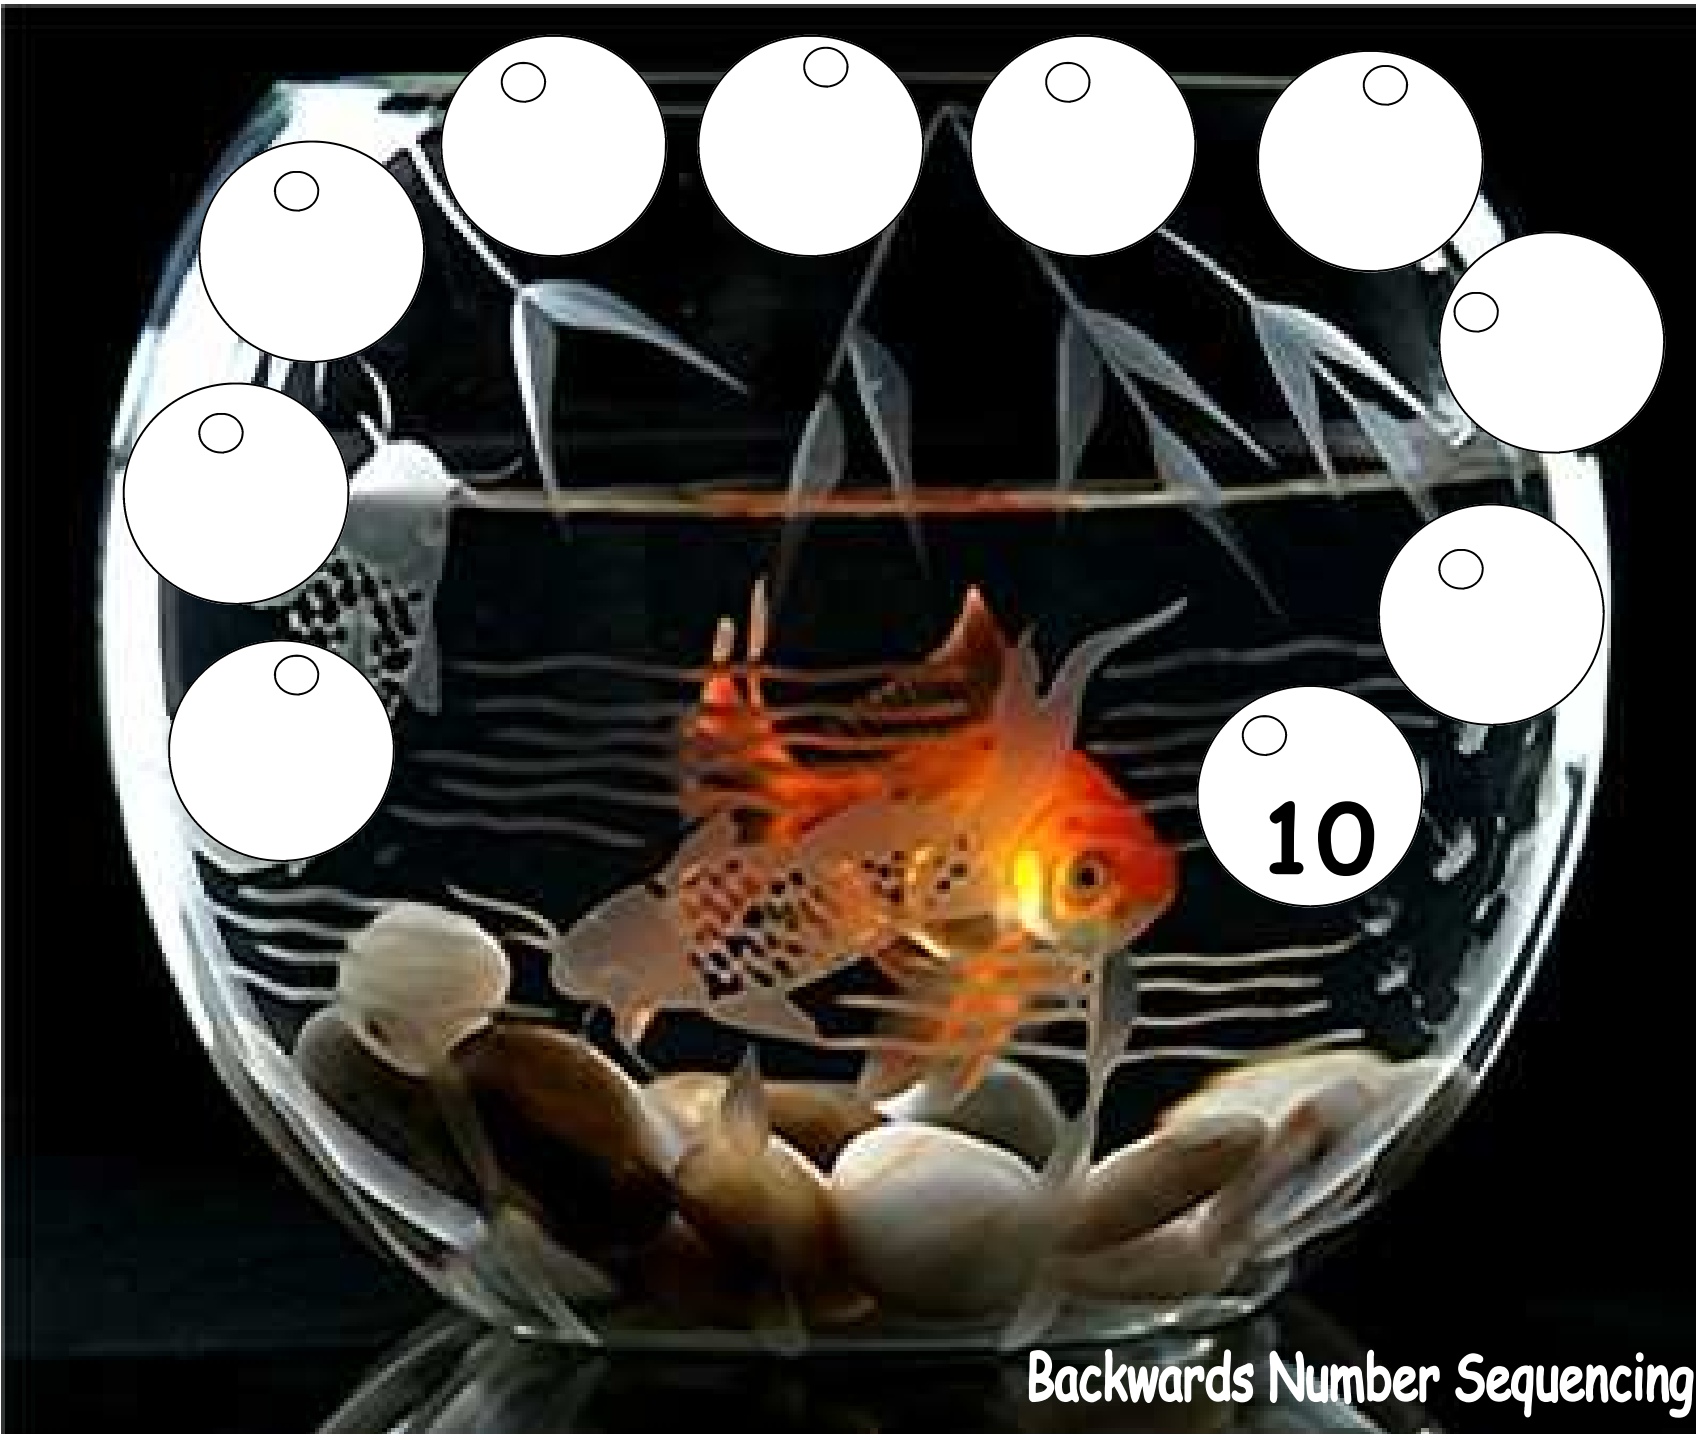

Children could place the numeral bubbles face down on the floor and turn them up and then place them on the correct bubble.
